The Cube

Cost-Efficient Home Elevators

Remain in the comfort of your home and elevate your standard of living with The Cube, an innovative residential elevator designed for both two-story and three-story homes. Combining cutting-edge design with revolutionary technology, this two-passenger home elevator is an economical and attractive alternative to stairs. Easy to install with minimal construction required, its compact footprint provides an elegant solution that integrates seamlessly into any home interior.

- ✓ 2-3 DAY INSTALLATION
- ✓ MINIMAL MAINTENANCE
- ✓ AVAILABLE WORLDWIDE
- ✓ SPACE-SAVING SOLUTION
- ✓ SELF-SUPPORTING
- ✓ ASSEMBLED IN USA

The Only Square Powered By Air

From the inventors and original manufacturers of the Vacuum Elevator comes the next evolution in home accessibility, The Cube.

For more than two decades, Pneumatic Vacuum Elevators, LLC has led the advancement of Pneumatic Technology®, revolutionizing how people and goods are transported vertically within the home.

Headquartered in Miami, Florida, USA, PVE utilizes the highest-quality materials and components to manufacture safe, reliable, and eco-friendly home elevators for residential use worldwide.

SERIES

With The Cube Designer Series, transform your elevator into a singular work of art. This premium collection features uniquely crafted panels that elevate the exterior design of the elevator shaft. The result is a striking architectural statement, showcased here in the Diamond Package, offering exquisite, one-of-a-kind finishes that seamlessly integrate with your home's interior.

Cube Lifts are designed as residential elevators and are not ADA compliant. Actual product may vary from images and renderings shown or descriptions provided. Variations in color, finish, features, or specifications may occur due to ongoing improvements, customization options, or display differences. Final delivered product may differ slightly from what is advertised.

Machinery Remotely Installed Up To 30 Linear Feet Away From Top Of Elevator

Residential Elevator Designed For 2-Story & 3-Story Homes

Proudly assembled in the U.S.A and available for purchase worldwide, The Cube is an affordable and easy-to-install home elevator solution that requires much less space, energy and maintenance than other through-floor lifts.

Color: White

Symbol For Mobility and Simplicity

A versatile residential elevator solution designed to fit even the tightest spaces, The Cube is where design and technology converge to create a stylish, energy-efficient home elevator at a competitive value.

Quick & Easy Installation

Without the need for a pre-construction shaft, pit, or machine room, The Cube offers a faster, more flexible installation, as the self-supporting home elevator rests directly on the existing ground floor.

Space-Saving, Panoramic Design

Incorporating a symmetrical design with 360° visibility, The Cube is crafted to optimize space and increase comfort, making it an elegant solution for both retrofit and new construction projects.

Eco-Friendly Technology

The only air-driven residential elevator featuring a square design, The Cube utilizes Pneumatic Technology® to generate lift by smoothly moving the cabin up and down through air suction and gravity.

3-Story Home Elevator:

Custom Built To Travel Up To 35 Feet In Total Rise

Modest Footprint:

36" x 36" Inch Exterior Dimension

Certified For 2-Passengers:

Transport Walkers, Luggage, Boxes & Groceries

Self-Supporting Design:

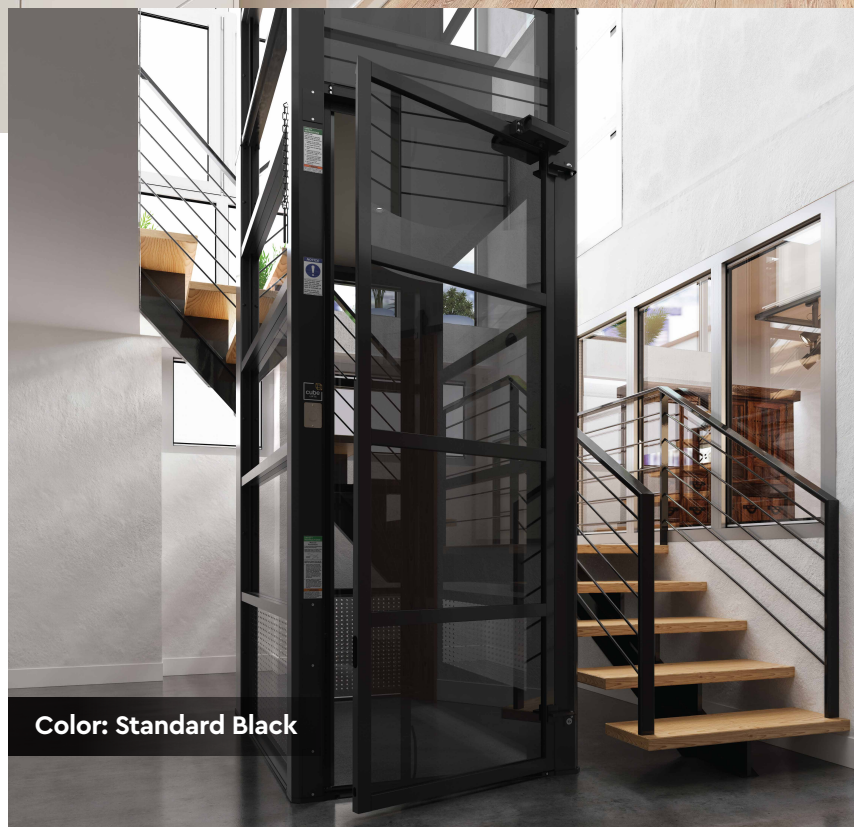

Installations Completed In 2-3 Days

Minimal Maintenance:

No Harmful Oils, Gases or Lubricants Required

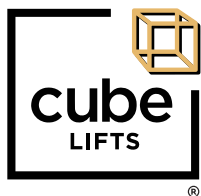

Cleanest Technology On The Market:

Home Elevators Powered By Air!
